

Sixty-Second Legislative Council
of the
Associated Students

Begun and held at the University of California at Santa Barbara, in the City of Santa Barbara on the *twenty-fifth day of May, two thousand eleven, in the sixty-second year* of our association.

A Resolution

To

Create a Transportation System for Students with Mobility Limitations

Whereas: Students with both temporary and permanent physical mobility limitations have limited alternative means to get to class on the UCSB campus; and

Whereas: Many other University of California campuses have a form of transportation for these students;

Whereas: UCSB once had a similar transportation system; and

Whereas: In the 2006 – 2007 school year 194 students came to Student Health with conditions that would qualify them to participate in this system, 208 students in the 2007-2008 school year, and many more in the following years; and

Whereas: A transportation system would create more student jobs on this campus; and

Whereas: Students with temporary disabilities have to pay \$36 a month for a UCSB parking permit in order to park on campus and;

Whereas: Many departments on this campus have agreed that this is a valuable idea and support this endeavor; including Student Health and the Disabled Students Program.

Therefore let it be enacted by the Associated Students in the Legislative Council assembled:

That the University of California, Santa Barbara administration recognizes the importance of a transportation system for students with mobility limitations for the UCSB campus.

Let it further be resolved: That UCSB Associated Students Administrative Staff work with the current Transportation System Workgroup to further develop and finalize the proposal for the program's implementation and;

Let it finally be resolved: That UCSB Associated Students Administrative Staff allocate funds toward the proposal's implementation.

Harrison Weber
