The Week in Review

1. Fall Retreat

- a. Thank you for making and making it a good weekend for all of us
- b. Hope you learned a lot about your position and board in general
- c. Good job Cassi!
2. How to get Involved Fair
 - a. Thank you all for tabling
 - b. It went very well, we handed out all of our applications
 - c. A lot of volunteers signed up and added to our wish list
 - d. It got dark really fast. Next time start and end it earlier.
3. Welcome Back Lagoon Movie
 - a. It was a good turn out about 300 people
 - b. It was cold! But a good movie
 - c. Set up went very well
 - d. Voter Reg was very disorganized showed up very last minute
 - e. OSL Leadership Retreat A lot of people showed up to the event planning session we held.
 - f. It went very well and very informational
 - g. We were able to inform organizations about what we are able to offer to them.
4. Welcome Back Concert
 - a. Thank you everyone for helping out and showing up at their call times.
 - b. Show went relatively well
 - c. Estimate was 3500 about 15 min into FlyLo's set
 - d. Probably around 4000
 - e. For next year:
 - i. Make sure the stage is the right size. There needs to be more money in the budget for that. It was still a good enough size for FlyLo
 - ii. Dress professionally at our events. No cut offs, no tanks, wear closed toes shoes.
 - iii. Add more money to production.
 - iv. The legs on the Geni have to be further away from the barricades from the inside, because it could be a safety hazard.
 - v. Unsure about when a student opener should

- vacate back stage. Keep contact with the artist at a minimal.
- vi. People were saying they were from the nexus when they aren't. People somehow got a pass to get backstage. Have better contact with KCSB in the future to avoid trouble in the future.
 - vii. There were professional cameras in the crowd that we had to chase down.
 - viii. If barricades come at 2pm sound should be at 10 am
 - ix. We shouldn't be zip-tying the pipe and drape because it makes holes
 - x. Friday stage would be very beneficial and convenient. Takes away from day of show.
 - xi. People got on the top balcony
- f. Make a rule with media that we would give them one warning and then kick them out if they keep coming back and breaking our rules.
 - g. We need to make clear that media outlets need to tell us before the day of. We should not allow media to come day of if they haven't contacted us.
 - h. Security wouldn't look at the badges to check the time that they are allowed back stage
 - i. We had DJ times for when they are allowed to be back stage to be on air
 - j. CSO's were suppose to be covering upstairs, but they weren't walking around covering the whole area.
 - k. We aren't suppose to be dancing back stage even though the artist may be okay with it, it makes us look very unprofessional.
 - l. We have had many problems with KCSB following our rules with backstage. We really need to communicate our rules to them.
 - m. Barricades need to be wider next year. One person was arrested. Many citations. Miller was punched in the face.
 - n. Make sure the artist is on the same page regarding interviews
 - o. A cop escorted a girl back stage to go and talk to Zoe, which was not okay. If someone wants access or needs to talk to the coordinator take them to the person, not the other way around.
 - p. There is not really any reason to have anyone back stage besides security and ASPB members.
 - q. The opener wanted friends to help him move his stuff, and it was unclear whether or not we should allow them backstage
 - r. Possibly contact the news station first to make sure they know who they have to talk to.
 - s. If your not hospitality, a runner, or running they show you should not be back stage.
 - t. We should have a post event to discuss what went wrong.
 - u. The sound crew opened up the barricades while the artist was still back stage with out asking or letting anyone know.
 - v. We usually don't give them passes with just have a list and keep them at their station
 - w. Books were still left in the lobby by the book store that had to be monitored by someone
 - x. Have the info desk in a well lit corner and the bathroom signs where they could be more visible.
 - y. MD: Everything went really well and smoothly! We should be very proud of ourselves and it was a good start to the year.
 - z. Zoe: thank you everyone for helping clean up. It was a very successful how even though we had only one arrest. It was very smooth. We started this year off right, with nothing but good feedback.

- i. Made list of all of the radios startions that we could reach

- iii. Promotion would be what we would do for extravaganza but on a bigger level
- iv. Have promotion to give away two tickets so that more people may be interested
- v. Promote to all of the comedy events here on campus
- vi. Look into a local add on comedy central
- vii. Look into the cost individually for publicity to see how much it would exactly be
- viii. We could see how many we hold until we open it up to sell to general.
- ix. They want to see our publicity plan before we are allowed to sell outside of campus
- x. Publicity budget would have to go up a lot more for all of the plans we have
- xi. Looking into the 18th of November because it is the farthest for today and still have a good timeline
- xii. Could be possible for the winter but fall would be ideal.
- xiii. The 18th is only a month and a half away that could be too soon considering how long it takes to get an offer out and confirmed.
- xiv. With his following \$32 is not that much to pay for Kevin Hart, considering the venue
- xv. We still want to push out an Ecen show this quarter just not at this big of a scale
- xvi. Mikey: His name is hart we could do it around valentines
