

AS BIKES MINUTES  
11.24.08  
AS Conference Room

Attendees:

Chris Wendell  
Nathan Pfaff  
Scott Bull  
Jackie Volkoff  
Jamey Wagner

1. Announcements
  - a. None
2. PR/Outreach/Recruitments
  - a. Update on Comm on Comm BIKES recruitment  
Posted on the website, so far no interest
  - b. Sidewalk Signs UCPD  
Waiting until the first of the year because ticket prices are going to be raised.
  - c. Website Update  
Email information updates to Judyann
  - d. Exposure at AS Bikes Shop  
Put up clipboard at bike shop to collect email addresses, leave stickers and flashes, advertise helmets at bike shop.
  - e. Order stickers, banner  
No need to order more stickers, order new banner for publicity on campus
  - f. Tabling at Ucen  
Maybe do bike gripe, but not a good way to get people involved, advertising at bike shop etc.
  - g. Bike gripe  
Will take place late to mid winter quarter, a great way to get people involved and give us feedback on what the students want
3. AS BIKES Business
  - a. Bikes Budget Report  
So far, no email back to Nathan on account status and matching funds from facilities account.
  - b. Bikes survey via email; plug into Miles Ashlock (?) emails
  - c. Bike Auction Strategy; not discussed during this meeting, Nathan will talk to UCPD
  - d. Follow up bike policy- being instituted? What building, where posted?  
Not discussed at this meeting.
4. Projects and Programs

- a. Bike Rack Assessment- review and send full data to CSO  
Working on getting pictures, done very soon.
- B, Encourage CSO to prioritize area to be cleared up;  
Unfortunately, primarily complaint driven, make complaints and see progress!

5. Priority Project List

- a. SAASB intersection, up to \$15,000 unanimously approved for completion of project over winter break, also approved 10% of project cost to pay maintenance. Nathan will get back to committee on cost for repaving up to bus stop, maybe able use facilities funding.  
Goal: shrink planter, create to 2ft of space on each side, unfortunately this may confuse students as there is no turn lane. Project will include resurface Bike Path to Base of Tunnel (Stop @ Tunnel Entrance).  
\$15K was approved in May 2008. This project will GREATLY improve the safety of this currently dangerous intersection.

**MOTION: approve up to \$15,000 construction of new intersection, demolition and repaving, striping and resurfacing of path at intersection to base of tunnel. Unanimous**

- b. Music North Parking  
Nathan will fill out a project initiation form for bid out
- c. Kerr Hall  
Not discussed during meeting
- d. Campbell Hall  
Not discussed

6. Repaving in front of AS Bike Shop

Nathan will fill out PIF form to get estimate. Work to be completed over winter break. Maintenance funds from Facilities will help offset total cost of project so it will be much less than approved. Approve is just to be sure. The committee is excited to complete this project since it is the most highly degraded section on campus. The project will include the resurfacing and striping from the circle near the bus loop and extend across the new ESSB all the way to HSSB.

**MOTION: approve up to \$20,000 for repaving, striping for bike path adjacent to AS Bike shop. Unanimous.**
