

Minutes
November 4, 2008

Attendees:

- Dr. Bruce Tiffney
- Scott Bull
- Nathan Pfaff
- Jackie Volkoff
- Farfalla Borah
- Dennis Whelan
- Jamey Wagner

- Update Dr. Tiffney on the current and upcoming projects
- Identified the problem: Complete lack of proper bike parking
- Problem:

- \$200,000 to 300,000 for a new lot to be built.
- CSO has refused to enforce bike parking on certain parts of campus, as they feel those areas do not have adequate parking and therefore is not fair to implement strict policy—This is CSO creating campus policy by default.
- After completing new projects, need to strictly enforce bike parking

-Kerr-

- -Lower grass lot by Kerr Hall- Expand out, do the same for SRB and Music North
 - -Put down weed-control fabric
- -Complete a curb cut by Kerr so that no bikes are riding on the sidewalk
- -Use lot by Kerr as a central campus parking lot
 - Or, per proposed by Dr. Tiffney put a lot by North Hall, or expand the bus loop lot, complete this projects to avoid car/bike interaction.
- -Another proposed idea was to completely remove all bike parking by Kerr and use the west lot by South Hall
- To enforce no bikes on the sidewalk by Kerr, put construction tape, and do at the beginning of a term.
- Push path all the way to the fence, put lots all on one side.
- Important to deal with the politics of this addition; get in good with the faculty in the building

Library

- -Put a lot on the grass by the library and a path by South Hall to link up (Long term project/library expansion) Throw in racks and make a huge, central campus parking lot
- -Potential fire access hazard
- -Problem with dumpster access
- -How much additional parking will this add? (Dennis will complete a study)

Campbell Hall

- -Not enough parking and students are not going to park all the way at Phelps.

- -Enforcement may cause problems, as students will cram bikes into one area, creating more confusion and chaos.

Farfalla is looking for some short term projects

-Nathan will fill out PIF for temporary lot at Music North

This will hopefully be a precursor for permanent lots; get rid of small lot and put in a large lot.

-Dennis will continue to ponder a solution for Campbell hall.

-Farfalla wants solutions to:

library round-about

Campbell hall/phelps
