      - Practical use AS green guide (all groups abide by these rules)
      - buying dishes to loan
      - Writing up a list of reasons why professors should use AS for readers (these readers are on recycled paper)
      - Making a purchasing guide. It would explain where individuals could get energy star products etc.
- \*400 fliers were passed around at the dorms
- \*IV co-op thanked us for meeting there for the hike. It helps bring knowledge of their location. Co-op to be the meeting place from now on.
- \*Top word of 06' was Sustainable
  
- \*Main Matter of business:
  - When to vote for officers
    - \*reason to start early: so that EAB doesn't just start over each year.
    - It would help keep momentum going.
    - There would be a shadowing process.
    - Proposed date: April 24th
  - Voting: all in favor!
  - Budget for this year
    - proposed idea for an internship. EAB would provide \$250
    - They would be in charge of an e-coalition. They would figure out what other green groups on campus are doing (networking) and write a monthly nexus letter.
    - In the past environmental summits have had too big of an agenda and there has been no follow up. This person would be responsible to take charge of this event and organize it. They would also be responsible in getting the other green groups information and compiling it/ creating a data base.

-Cost to be split with SPF?

-Would like to do 1 meeting before the end of the quarter.

-Voting: All in favor

-Earth Days Budget:

-Voting: All in favor

\*Sustainability Conference

-\$50 per person.

-Request that EAB send a few people (finish discussion on this next meeting)
