

## MINUTES

June 27, 2006 4:23 pm

Nilagia, Sierra, Lauren, Elizabeth, Josh, Hassan, Alex

Note: no one is really here due to summer schedules etc., so we didn't vote on anything.

People fill out their office hours if they have not already done so.

MUDDY WATERS- Alex talks about kcsb muddy waters night. Sometimes it's good, sometimes no one shows up. Muddy waters is closing. New ownership may or may not like us, so should we look for a new place or try to work with the new owners? We could work with mercury lounge but that's 21 and up. Alex thinks it's important to keep a downtown presence because kcsb is always in IV, and this could expand our outreach. General consensus is that we want to keep doing a muddy waters-type thing. Alex also thinks that every week is too often to DJ at muddy waters or a similar place. Java Jones downtown may work? Nilagia says Alex should start asking places if they would allow kcsb to DJ on certain nights. He says okay! And leaves.

Brian comes in!

STUDIOS B & D REMODELING- Brian says tomorrow we're going to start pulling tiles, removing drywall, putting in soundproofing, painting, new equipment, etc. We may need help moving stuff out of the station (tiles, drywall) so if anyone wants to help tomorrow afternoon that would be excellent. Brian warns that you should not wear nice clothes. We're also trying to do studio A. Specific times posted somewhere for when people should come help in the station may be good.

KJUC - Meeting Thursday at 6 pm. Lauren and others will need to train KJUCers. We need to figure out exactly what the trainers will be telling the KJUCers. Lauren decides to make two days tentatively for training sessions. Each training session should be two hours.

STATION TOURS- Starting this Saturday, every Sat. and Tues. at 11:45 the freshman orientation group brings a group here to give people a tour of the station. These go all the way until August. People on excomm need to volunteer to give tours. When giving a tour, show them around the station, the library, explain where things are and how things are set up. Tell them what kcsb is about (non commercial, etc). We may have music to give away at the tour Elizabeth says. No meeting this Tuesday for excomm or for the freshman orientation tours.

GRC- Lauren said she is interested in going to GRC. She is the only person who sent Nilagia an e-mail. Lauren rocks. A lot of people sounded interested at

the meeting, but now no one is really sending Nilagia e-mails about it. If Nilagia doesn't hear back, she's just going to assume no one is interested and tell Lauren and Hassan (?) to go to GRC and have fun!

SPONSORING BEAT MAKING WORKSHOP- Mass Appeal wants to bring a beat making workshop to UCSB. The guy who produced ODB (!!!) will be there, and some other guy too. They want to put a tour on the west coast and stop at different colleges. Would there be interest at UCSB? For the workshop to happen it has to be free, open to the public. Event would take place some time in winter. Our responsibility would be to do publicity, securing an on-campus venue for them. The person putting it on would like to know if we're interested by this week. Nilagia will go ahead and e-mail the guy and tell him we're interested.

PROBLEMS WITH TURNTABLES- We've had problems with people taking needles from kjuc and putting them in kcsb. Nilagia says we don't really have enough people to vote right now, but we need a solution. Maybe a solution would be to remove the kjuc needles when kjuc is not on the air. Brian says the larger issue is that the turntables are being destroyed basically. Brian doesn't want to buy something new because he's afraid it will simply get destroyed. Elizabeth says it is definitely a problem and no one really knows how to go about fixing it. She adds that we may need to replace one of the turntables regardless.

WEBSITE MEETING- A lot of the people who were going to be involved with the revamp of the website are not here. Brian says he hopes to have a site set up by the end of the summer. Go live is installed on one of the machines. Someone can edit it and sent it to brian? Elizabeth says that any time we want something advertised it should be advertised on our website and on the AS website. People should be sending stuff to Chris Tenburg(?). He made our website and updates it sometimes.

DJING AT JOB FAIR- Job fair on September 27. They asked us if we want to DJ there and have a table. Classes start the next day. We also have the open house that day.

DIVIDING UP STAFF CONTACT LIST- Nilagia is going to divide up the phone list and e-mail it to people. Staff meeting is coming up July 13.

#### REPORTS:

Nilagia: She says she's been a little behind, but she's been updating the phone and e-mail list, working to resolve different issues. She said she got interviewed by News Press and tomorrow (Wednesday) it will be in there!

Lauren: has been working on sandwich boards and flyers with Sierra. They've been approved by AS and will be put up around campus, etc. tonight.

Sierra: same as Lauren, working on schedule..half way through first page of it. She will get it finished as soon as possible!! (Why am I writing in third person?).

Hassan: just got back on Sunday, came in today for the first day. Some reporters want to work with us over the summer.

Josh: learning about being a music director. Trying to organize and go through music. Did some CMJ stuff? He did our top 30 plays, Kimya Dawson was our number one play!!!

\*We won't be meeting on the fourth of July, but the meeting should be held on another day, especially since so many people weren't here today. Nilagia will check with excomm and try to figure out a different day for our excomm meeting that week.

FCC fines have increased a lot. People are suggesting having 7-second delays on air so that we can censor our music if we make a mistake and allow indecency etc. on the air. Elizabeth thinks maybe we should try to challenge it because of our first-amendment rights.

Meeting adjourned!
