Russian Matryoshka dolls are a symbol of Russian culture. For this event, we buy plain dolls and paints and students that attend can paint their own Matryoshka doll. This event has been one of our club’s most popular since 2007 when it was first done. In 2008, we also added Holiday ornaments to paint. This event is usually close to the holiday season and ornaments for New Year’s are very important in the culture. This event helps us spread positive aspects of our culture to the student body and we open it to the entire student body.

We would like to throw a party on campus Friday night for students not interested in Isla Vista for Halloween. We would like to take students to Ventura on Saturday for a Movie and dinner. This is for students who would rather stay away from the activities going on for Halloween. Just want to provide a them with the opportunity to get a way and still have fun. I fully understand that Associated students does not fund off campus events but I would ask that you be mindful of people who might need to get away from the Halloween atmosphere of Isla Vista all together. Thank you for your time.

Alpha Gamma Omega--UCSB's Christ-centered fraternity--will be holding its annual open mic night. Fraternity members will be performing entertainments and a student band will play music. We will have Halloween themed food and games at the event, (for example a pumpkin pie eating and a costume contest), with prizes for the winners. The goal of the night will be to have fun while living a drug free, Christian lifestyle. Everyone at the event is welcome to perform and participate.

October 19, 2009

Dear Chris Wendle:

My name is April Gubatina and I am one of the Co-Social Chairs for Kapatirang Pilipino 2009-2010. My Co-Social Wendy San and I are responsible for organizing KP’s involvement with CSU Fullerton’s 24th Annual Friendship Games hosted by Pilipino-American Student Association Kaibigan. I am writing this letter to request funds to help us achieve our goals for Friendship Games. This year CSU Fullerton anticipates over fifty schools and 8,500 students in attendance. Friendship Games is on October 24th, 2009.

Each year Friendship Games gathers the Pilipino-American and API communities from campuses all across the nation to help foster awareness and growth for one another. KP UCSB traditionally attends this event to provide its members a dynamic look at the growing sense of unity throughout the API community in other campuses. This weekend also encourages growth within KP UCSB, as this event helps our members get to know one another and get to know the API community in UCSB.

Friendship Games is celebrated and won in two ways. One way is through five highly competitive and fun picnic games comprised of ten people. We always aim to finish in the top three to showcase UCSB physical prowess. The other way to win as a campus is by best showcasing Spirit, Pride, Unity, and Friendship (SPUF) to the other universities. All the participating universities vote on the school they believe showcases SPUF the best, and the winner receives a very deserving eight-foot trophy. Our goal this year is to win both trophies and put UCSB one step closer as a leader in the API community.

This year our members are paying for the two nights stay at a local Fullerton hotel, transportation costs, and KP UCSB shirts. In order to participate in this annual event, KP UCSB has to pay a registration fee. We carry on this vision with believing that our members should not have to pay out of their own pockets to enter the event. This is why we are requesting for funds for registration to lessen the burden on KP and its members.

Please feel free to contact me if you have any further questions. I am in constant contact with our advisor Zekke Silos if you somehow cannot contact me. I would like to thank you so much for your time and consideration.

Sincerely,

April Gubatina

Dear Associated Student Leaders:

I am the faculty advisor of the Women in Computer Science (WiCS) group, and am also a Professor and the Vice Chair of the Computer Science Department. I am writing in regard to the issue that has come up with regard to their lack of registration as a student group in the 2008-09 year, and their request for $250 in startup funds for that year. WiCS was founded in the 2007-08 year, and has been an active group ever since. We change officers at the beginning of each academic year. Unfortunately, it seems that there was some miscommunication last year between the outgoing and incoming officers that lead to our forgetting to register as a student organization for that year. This was completely an oversight, as WiCS has been and continues to be a very active organization. There are multiple events each quarter, which include a welcome potluck for our new students in the Fall, social events such as a bowling night, academic events such as meeting with female colloquium speakers in our department, and active recruiting of new graduate students.

To make the case for this request, I think it is important to include the history of this group. Nationally, women in Computer Science are a distinct minority. They make up approximately 20% of graduate students in MS and Ph.D. programs. Approximately 15% of Computer Science faculty are female. Through a concerted recruiting effort, the UCSB Computer Science department increased the percentage of female graduate students in our program from 19% to 24% in 2007. As a result of this success, we founded the Women in Computer Science group to academically and socially support these students and help ensure their retention. This organization is critical to the continued recruitment and retention of our female graduate student population. The group works to recruit newly admitted students to our campus, and also is an important academic support system for our current students. The group is invaluable in this effort and has become critical to our department. It is unfortunate that they had this miscommunication between outgoing and incoming officers about registering as a student group, but it was not from malicious intent. Because they believed they had money from last year’s registration, they have already hosted a welcome dinner for the new graduate students and used part of this allocation. While they probably should have waited until the money was in hand before hosting the dinner, it is critical to have this welcome dinner in the second or third week of the quarter, before the new students become overwhelmed with coursework and are unable to attend their own welcome event.

In summary, I ask that ASSU please make an exception based on the importance of this organization and the fact that it was an oversight that they did not register last year. They have been a very active organization and I’m sure will continue to be so in the current year. Thank you for your consideration of this request.
Sincerely,

Elizabeth M. Belding
