  - MS Motion to allocate \$476 for event on October 29, 2005

Discussion: Presentation by Mr Boquillia left too many questions unanswered: how much money is left over from last year? What money was already given? How much money do student groups tabling actually need. Itemized budget was not updated from last year's event, and IVCRC requisition form was not filled out

MS: Motion to request that Mr. Boquillia resubmit proposal for event with updated information in regards to the problems stated above

MSC: Motion Passed Unanimously

### Old Business:

None

### New Business:

**Eric Cummings**- Environmental Affairs Board (EAB)

Requesting IVCRC support for IV city repair. City repair is a concept that advocates the "taking back of local environments" by the people who dwell within them. Ideas include collective murals on streets, bench making, street maintenance, and creation of community information centers. EAB wants to pursue legal routes of legitimization for city repair activities. IVCRC members are invited to EAB meetings, Tuesdays, 7pm @ GSA lounge for more campaign information.

### Adjournment:

MS: Motion to Adjourn at 8:15 pm.

MSC: Motion passes by consent
