Funding Requests:**Alumni Association**

On March 13, there is a race. It is part two of a three-part race. It raises money for student scholarships. It is part of a 3 million dollar effort to increase scholarships. The association has already raised 9,000. This event would bring alumni back to campus. The main cost for the race is closing the roads and working with the Foot Patrol. The goal is to get 300 runners. The races are no waste. The chips are all recyclable. This is a very sustainable event. The association is requesting 2,500 from IVCRC. This includes transportation services and police for the event.
