Future Projects:

Work study program with the Teen Center and Youth Projects

For the past ten years, we have funded the students at the Teen Center and Youth Projects. This takes 20,000-30,000 out of our budget each year. A huge problem is that they are relying on us to run. We hope to develop a professional development program where we work more closely with the students.

Capital Improvements

The kiosk is built. We are waiting on signatures to get it up.

AS Space

We are hoping to have our own space by January 2011.

Pardall Carnival

We need to start planning the event as soon as possible. More information will come over email. We want to turn this into the AS recruitment fair and work closely with CAB.

Floatopia

We would like to make a float for the event next year. The float will be powered by bicycles! We want this to be a community event with no alcohol. We have to make sure the event is safe.

Retreat:

Look for an email from Kelly!
