1. People who didn't train properly, pitch

3. Excomm should come in and pitch with people (passive vs. active)
4. Write a pitch, then throw away the script and just talk
5. Do a post-mortem with the KCSB staff (make sure people are engaged) at winter meeting, people should check their attitude
6. PMRC should take people's lack of responsibility into account for next quarter (time slot)

8. We need help sending things out, accounting, paid pledge packages, active plan to have a music sale for leftovers (last week 27-29<sup>th</sup> of November 11am-3pm, Tuesday, Wednesday (Arbor), Thursday (Arbor), serious promotion of it with PSAs, posters, ads in newspapers, sell CDs, T-Shirts, Mugs)

#### Elizabeth's AAMARC report

- Trip to Rabat, Morocco of African continent
- Went for community radio organizing meetings for Middle East, north Africa (150 people)
- Roommate from Chad is radio, videographer and in mid-90s a fatwa was issued against her because of a film about genital mutilation, but she didn't mention it to Elizabeth at the time
- Elizabeth's slide show: Monarchy, recent violent history, place where people are going from Africa into Europe so try to cross Atlantic, many people trying to get to conference couldn't board planes or country conflict (one Ugandan, 4 Iraqis, DRC people, but others from Nairobi, Gambian coast couldn't get there because Moroccan gov. trying to close borders to sub-Saharan Africa so people can't move around), colorful décor and architecture, former king was rebelled against and 12,000 people killed in short span, former king's son is a reformer is liberalizing and hasn't allowed testifiers to name names, but still a fair amount of repression, 70% of world's hashish is produced in Morocco, whenever spoke the king's portrait was always looming behind them and dwarfing them, no regulation for community media in Afghanistan, Niberia has first woman president in Africa, Middle Eastern women are all trying to create radio stations (women instrumental in breaking taboos like speaking out against genital mutilation, abolish prohibition of fathers from interacting with newborn children, refugees), one woman wants to establish internet radio which isn't controlled by government, Ethiopian woman is trying to create community radio, puts in perspective because it gives us a sense of what it might be like to interact with people who have struggled to produce radio, **access to media is never to be taken lightly**
- Language can either be a barrier or just something to work with
- Michael's Note: chris is wearing one shoe the whole time
