Mission Statement of SCORE

We strive to increase the representation and retention of underserved communities in higher education by promoting social equality and diversity at both student and faculty levels. We advocate self-empowerment through education and cultural celebration, political engagement, and activism in every form of expression. SCORE acts as a resource and support network to serve all students of color and allies at UCSB. Ultimately we are working towards a learning environment that is cohesive with our needs and our advancements as students of color.

This year, we hope to act as a space where all student of color organization at UCSB can connect, unify, and collaborate on shared issues and common concerns (such as the need to outreach and retain programs, actively combating inequality and discrimination on campus, off campus, and in our society as a whole, and increasing the access and affordability of UC system) in order to create real solutions and actual change.

Liaison (roles/duties)

- 1) To attend SCORE meetings every Tue, at six, to give updates on specific issues, events, or concerns pertaining to your communities/ organizations.
