#### Discussion-

This Harvest dinner is relevant to the mission of SCORE because it celebrates the ancestry of American Indians in the United States as it is celebrated in November across the country in Native American groups. The Harvest Festival began 33 years ago because Native students at UCSB could not go home for Thanksgiving. As a consequence, the American Indian organizations on campus began holding the Harvest Dinner to bring together the students and community who could not go home. This is an annual event that focuses on bring together UCSB students, community, friends, and campus staff to share in thankfulness for the harvest and for their blessings. This celebrates genuine tradition that is even more relevant to this region that the celebration of Thanksgiving itself.

#### Discussion

La Voz de El Congreso is an alternative and culturally orientated newspaper that is targeted and looking to help the progression of the Chican@/Latin@ community in and around UCSB. La Voz is a political publication used to educate, inform and inspire political action within their community and provide an alternative form of media. This fits SCORE's mission by meeting the needs of Chican@/Latin@ population on campus and their struggle to advance themselves and their community.

- Motion to allocate La Voz \$300- Celina (Seconded by Haley)
