University Folklorico Summit (UFS)

Event Date: November 17-18, 2019

Hosted by: Raices de Mi Tierra

Description:

University Folklorico Summit (UFS), an initiative of Danzantes Unidos, provides a forum for university group leaders to share the best practices to help promote and sustain their campus organizations. As university folklórico groups, it is our responsibility to be ambassadors for our communities. It is also our responsibility to provide a safe space for constructive discourse and study to take place. We take the responsibility to be mentors to local folklórico groups in both schools and our communities and help bridge the gap of folklórico dancers and musicians that stay in the community and those that leave to go to college. The Summit strives to educate the next generation of folklórico student leaders of the multiple facets and characteristics that make up an efficient and sustainable university folklórico group.
