Allocation Request: Non-Sexual Violence Group, Sexual Violence in the Periphery
Human Right Group is requesting \$100 for publicity for their upcoming Kiva Banquet. The Kiva Banquet is non-profit organization that provides funding to entrepreneurs in poverty stricken areas like the Sudan, Latin America, etc. 90% of recipients are women who have faced exploitation and harm to them emotionally, physically and mentally including often working in sex trade, a very real and sad option many women have to face, especially in Asia.

The Kiva Banquet is Monday November 15, 2010 at 7pm in Corwin Pav. Our allocation, should we fund it, would go toward publicity fliers for the event and calendars for human rights week.

PRO: Sexual Violence in the periphery since many recipients of the kiva fund have been subjected to sexual violence/ sex trade/ sex trafficking. Although the speaker this year is a BCC reporter, she will definitely be talking about the conditions these women have faced.

CON: Non of the speakers/videos explicitly say that they will address sexual violence directly.
