

**AS Worms**  
February 21, 2008  
Environmental Office

**Call to Order**

ASC was called to order at 3:30p.m. by Elizabeth Otter – Coordinator

**ROLL CALL**

Scott Bull  
Liz Otter- Coordinator  
Stanly Cui  
Amy Liu  
Bess  
Carisa  
Ingrid

**ACCEPTANCE OF PROXIES TARDIES, AND EXCUSED ABSENCES**

None

**OLD BUSINESS**

None

**NEW BUSINESS**

1. Scheduling.

We discussed next week's schedule. Amy and Carisa will be doing the Friday I.V. pick-up, and Stan will be doing a delivery on Monday.

2. New Businesses

We discussed adding Java Jones to one of our waste contributors. Hopefully they will be on schedule by next week.

3. Park and Rec Proposal

The Park and Rec proposal requesting an educational day in the park/the painting of the bins has been drafted, and at the meeting was reviewed by all the members. The proposal was turned in this week.

4. New Supplies

We discussed purchasing a hose extension/buckets this weekend. Furthermore, the hose fitter at People's Park is missing so we are looking in to replacing that.

5. Outreach.

We will table in the arbor this coming Monday. Posters have been made, and we plan on bringing a demonstration box where people will be offered fruit and asked to place the waste in the worm rich soil to demonstrate vermicomposting first hand. Furthermore, sample flyers have been drafted, and we will hopefully have them ready to distribute as soon as we have access to a computer graphics designer. We are waiting on this designer to complete our other projects such as t-shirts and stickers.

6. Extension of Rider Position

We discussed expanding the rider position beyond bin maintenance. Amy and Carisa are now in charge of designing a metal sign describing the purpose of our group in front of the bins at People Park, and Stan will be in charge of the design of the brochure. A rough draft of these projects will be done by the next weekend.

4. Next week's meeting was planned for the same time.

**ADJOURNMENT**

Meeting ended at 4:45.
